FY 2007ASCOG-REAP APPLICATION

PROJECT INFORMATION

BRADLEY, Town of

(Municipal Park)

Applicant (City, Town or County District:

Project Summary/Impact Statement:

The Town of Bradley has identified development and construction of a Municipal Park to be their number one priority in their long term strategic planning. To meet that goal, the Town of Bradley has recently purchased land (final closing on July 3, 2006) where the park is to be located for a total of \$3,657.21 (including closing costs). The town hopes to construct a pavilion, playground equipment for children, a swing set, volleyball court, basketball court, and a skate ramp to serve as an activity center for citizens of all ages with a goal of providing a safe and comfortable environment to exercise and enjoy time spent with their families. The park may be used for birthday parties, holiday celebrations, family gatherings, and various outdoor activities. Completion of this project will also impact our growth. We hope that the addition of a Municipal Park will be an incentive for current residents to stay and will also attract new families to our town. The Town of Bradley has hosted a bake sale that raised \$460 and has received notification that Wal-Mart is donating another \$250 toward the project. Additionally, we have contributing partners that will donate \$1,192 worth of labor and dozer time to clear the park area. The amount requested should cover all expenses needed to make the park a reality, however, a priority list is also included to ensure that the most important and desirable portions of the park will be completed in case the funds prove inadequate to complete everything. If the grant is approved the townspeople will volunteer to assemble the playground equipment. This effort will incorporate community involvement, re-instill pride in our town and give residents a sense of responsibility for the park.

This project was discussed with Shan Shepherd of Noah's Park and Playgrounds to get a rough estimate for the cost of equipment. This project was also discussed with L. A. Jacobson, a local concrete contractor, and Joe Webb, a local steel building contractor, to get a rough estimate for building a pavilion, and laying a slab for the pavilion, basketball court, skate ramp, a wheelchair accessible walkway leading to the pavilion and a sidewalk surrounding the park.
