RULES AND REGULATIONS

of

BRADLEY WATER COMPANY, INC.

These rules are issued in compliance with the provisions of the Articles of Incorporation and the Bylaws of the Corporation and are designed to govern the supplying and taking of water and sewer service in a uniform manner for the benefit of the Corporation and its members. They are subject to change from time to time. However, all such changes must be approved by the State Director of the Farmers Home Administration, until such time as the Corporation is no longer indebted to the United States of America, or until such time as the Corporation has completely retired all loans made by or insured by the United States of America. If a provision of the rules conflict with a provision of the rate schedule, the provision of the rate schedule will prevail. If any portion of these rules shall be declared invalid by competent authority, such voidance shall not affect the validity of the remaining portions.

Definitions: The following expressions when used herein will have the meaning stated below.

Applicant: Any individual, firm, partnership, corporation or other agency living or owning land located within the service area applying for water and sewer service who applies for membership.

Membership Certificates: A right entitling the holder to one water and sewer service connection.

Board: The Board of Directors of Bradley Water Company, Inc.

Consumer: Any individual, firm, partnership, corporation or other agency receiving water and/or sewer service from the Corporation's facilities.

Point of Delivery: The point of delivery shall be at the meter, unless otherwise specified in the Application for Water and Sewer Service. The point of sewer connection will be at the Corporation's collection lines adjacent to the property.

Service: The term of service when used in connection with the supplying of water shall mean the availability for use by the consumers of water adequate to meet the consumer's requirements and adequate sewage collection and treatment facilities. Service shall be considered as available when the Corporation maintains the water supply at normal pressure at the point of delivery, in readiness for the consumer's use, regardless of whether or not the consumer makes use of it and when the Corporation has available to the member sewage and treatment facilities.

Application for Water and Sewer Service: The agreement or contract between the consumer and the Corporation, pursuant to which water and sewer service is supplied and accepted.

State Director: The State Director of the Farmers Home Administration.

Water and Sewer Service: Water and sewer service shall consist of facilities for supplying water and sewer to one residence or business establishment.

GENERAL RULES

1. The supplying and taking of water and use of sewer service will be in conformance with these rules and the reasonable rate schedule attached hereto; and filed with the secretary-treasurer of the Corporation; provided, that such rate schedule is subject to change by action of the Board with the approval of the State Director. Provided further, that if at any time the Board of Directors determines the total amount derived from the collection of water and sewer charges is insufficient for the payment of operating costs, emergency repairs, or debt service, the Board shall increase the minimum water and sewer rate for the first month thereafter in an amount sufficient to pay such operating costs, emergency repairs, or debt service.

2. Applicants for service shall make application to the secretary of the Corporation. If the application for service is approved by the Board of Directors, the applicant pays the required costs and signs the standard application for water and sewer service, he shall receive service.

3. Before installing a service extension and providing water available for use, the Board may require the applicant to pipe his home and be in readiness to accept service.

Service is for the sole use of the consumer: Service is for sole use of the consumer. A standard water and sewer service connection is for the sole use of the applicant or the consumer, and does not permit the extension of pipes to transfer water from one property to another, nor to share, resell, or sub-meter water to any other consumer or allow another user to connect to the applicant's sewer line. If any emergency or specific situation should make such an arrangement advisable, it shall be done only on specific written permission of the Board of Directors for the duration of the emergency.

Agreements with governmental and public bodies: The Corporation through its Board of Directors may make specific water and sewer service contracts with the Federal Government, the State of Oklahoma, or agencies thereof, school districts, municipal corporations and nonprofit corporations, differing from stipulations set out in the rate schedule and rules. Such contracts must receive approval by the State Director of the Farmers Home Administration.

Right of Access: Representatives of the Corporation shall have the right at all reasonable hours to enter upon consumers' premises to read and test meters, inspect

pipng and to perform other duties for the proper maintenance and operation of service, or to remove its meters and equipment upon discontinuance of service by consumers.

Continuity of Service: The Corporation will make all reasonable efforts to supply continuous, uninterrupted service. However, it shall have the right to interrupt service for the purpose of making repairs, connections, extensions, or for other necessary work. Efforts will be made to notify consumers who may be affected by such interruption, but the Corporation will not accept responsibility for losses which might occur due to such necessary interruptions.

The Corporation does not accept responsibility for losses which might occur due to interruptions to service caused by storms, strikes, floods, or other causes beyond its control.

Meters: Meters will be furnished, installed, owned, inspected, tested and kept in proper operating condition by the Corporation, without cost to the consumer. A complete record of tests and histories of meters will be kept. Meter tests will be made according to methods of the American Waterworks Association by the Corporation, as often as deemed necessary by its Board of Directors.

Meter Accuracy: Service meters whose errors do not exceed two percent (2%) fast or slow shall be considered as being within the allowable limits of accuracy for billing purposes. The percentage of error will be considered as that arrived at by taking the average of the error at full load and that at ten percent (10%) load, unless a consumer's rate of usage is known to be practically constant in which case the error at such constant rate will be used.

Meter Location: Meters shall be set in an accessible place adjacent to the property line of the member except where otherwise directed by the Corporation. All meters shall be set horizontally and never connected into a vertical pipe. Meters set outside of a building shall be placed in a meter box furnished and installed by the Corporation.

Bills: Bills will be rendered for service by the 5th day of the month following that in which the service was rendered as set forth in the rate schedule. Service bills not paid by the 16th of the month shall be subject to a 5 percent late charge. Failure of the Corporation to submit a service bill shall not excuse the consumer from his obligation to pay for the water used when the bill is submitted. Failure to pay a bill by the first day of the month following the month in which the bill is rendered, shall result in the disconnection of the service.

Reconnection Charge: The reconnection charge for restoration of service, if reconnection is authorized and approved under the provisions of the bylaws of the Corporation, after such suspension of service because of delinquent payment or for other infraction of these rules, shall be the unpaid amount charged to date against the consumers membership, plus 6 percent (6%) interest, and a sum to cover the reasonable cost of labor necessary to make such reconnection.

Requested Meter Tests: Meter tests requested by consumers will be performed without cost to the consumer if the meter is found to be in excess of two percent (2%) fast. Otherwise, the consumer for whom the requested test was made will be charged for the cost of making the test.

Consumer's Responsibility: The consumer shall be responsible for any damage to the meter installed for his service, on account of any cause other than normal wear and tear.

Change of Occupancy: It shall be the consumer's responsibility to anticipate changes of occupancy, and to have his membership certificate transferred to the new consumer as prescribed in the bylaws. Until the certificate is formally transferred, the original holder shall be responsible for payment of service. All charges levied against a member must be paid, before the membership certificate can be transferred, or service resumed where there has been a suspension.

Main Extensions:

1. In extending a water or sewer main to serve an applicant, the Board may at its discretion exercise one of the following options:

a. If the cost of the extension is less than the average cost of the entire system to each member, and sufficient construction funds are available, the Board may elect to make the extension upon the applicant's purchase of a membership or payment of the required fee.

b. If the cost of the extension is greater than the average cost of the entire system to each member, but the funds are available to the extent of such average cost, the Board may elect to contribute to the extension in the amount of such average cost, and require the applicant to deposit in cash the additional cost in addition to the price of a membership. If, and as additional consumers are connected to the extension, and as funds become available, all or part of the original consumer's deposit may be returned to him. Any portion of the original deposit remaining after the expiration of a five-year period will become the property of the Corporation. In no case will interest be paid on such deposits.

c. In the event that the Corporation does not have funds available to pay for construction in the amount of the average cost per member of the entire system, it may require as a condition of extending service, that the applicant deposit in addition to the price of a membership, an amount which may equal the entire cost of the system per member. No interest will be paid on such deposits.

2. However, the Board shall not issue any bonds, notes, indentures, obligations, or other form of indebtedness in connection with the extension of lines hereunder, or mortgage or encumber the system in any manner.

Services: The Corporation will install and pay for all water service pipes (except for private fire protection) from its main to the meters. The service pipe shall not be less than three-fourths inch in size. The Corporation will also install and pay for the Corporation cock, meter and meter setting. The meter will be set in front of the premises to be served or at the closest point on the consumer's premises as designated by the Corporation. The Corporation will install the sewer collection lines which normally will be located in the alley. The user will be responsible for all piping from the dwelling to the collection lines.

Applicants having excessive requirements: In the event an applicant whose water requirements are found to exceed the Corporation's ability to supply it from existing plant without adversely affecting service to other consumers to a reasonable extent, the Corporation will not be obligated to render such service, unless and until suitable self-liquidating financing is arranged to cover necessary investment in additional plant.

Cross Connections: There shall be no cross connections made or maintained between the water system of the Corporation or any other system (private or otherwise) and that all new structures constructed within the Corporation shall, prior to service connections, comply with the plumbing standards of the State of Oklahoma. In addition, all sewage disposal systems shall comply with the standards contained in Oklahoma Department of Health Engineering Bulletin Nos. 600, 0587 and 0575.

Representatives of the Corporation, the state and local Health Departments shall have the right at all reasonable hours to enter upon consumer's premises for the purpose of inspection and enforcement of this provision.

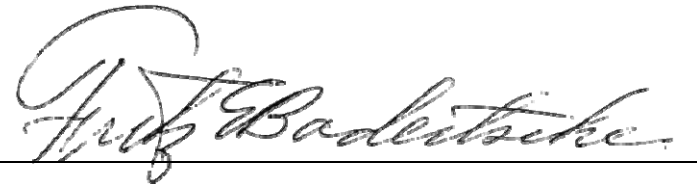

Violation of this provision shall constitute cause of disconnection of a consumer's service.
